

The unvarnished truth about the new low-maintenance Sport GLS from Boston Whaler.

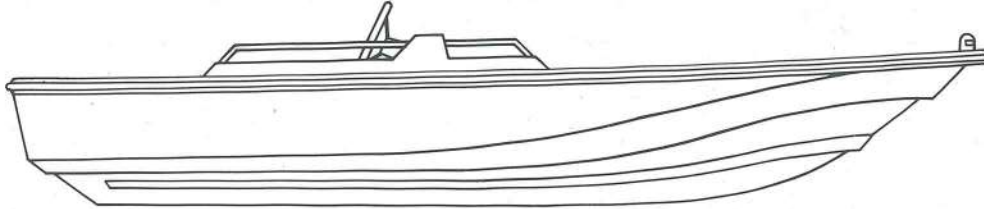

The truth is, you won't have to do any varnishing with the new Sport GLS. Or, for that matter, any sanding, scraping or stripping. For we've added a low-maintenance fiberglass interior to our legendary Sport hull. The same unsinkable hull of closed-cell foam and fiberglass that boat owners have come to rely on for over three decades. With the same unbeatable ten-year, transferable warranty. The new 13, 15 or 17-foot Sport GLS. Outside it may be different, but inside it's still a Boston Whaler.

**BOSTON
WHALER**
