

We just widened the gap between Boston Whaler and every other fishing boat in its class.

Introducing the Whaler 25 Walkaround.

For over 30 years, Whalers have ventured farther, defied nastier weather and logged more offshore miles than other boats in their class. All to the infinite delight of people for whom fishing is less a recreation than an all-out passion.

If you're one of those people, our new Whaler® 25 Walkaround will let your passions run even wilder. With nearly ten feet between the gunnels, obstacles like whitecaps, rollers and angry chop suddenly seem less threatening. And those far-off fishing spots, a lot more inviting.

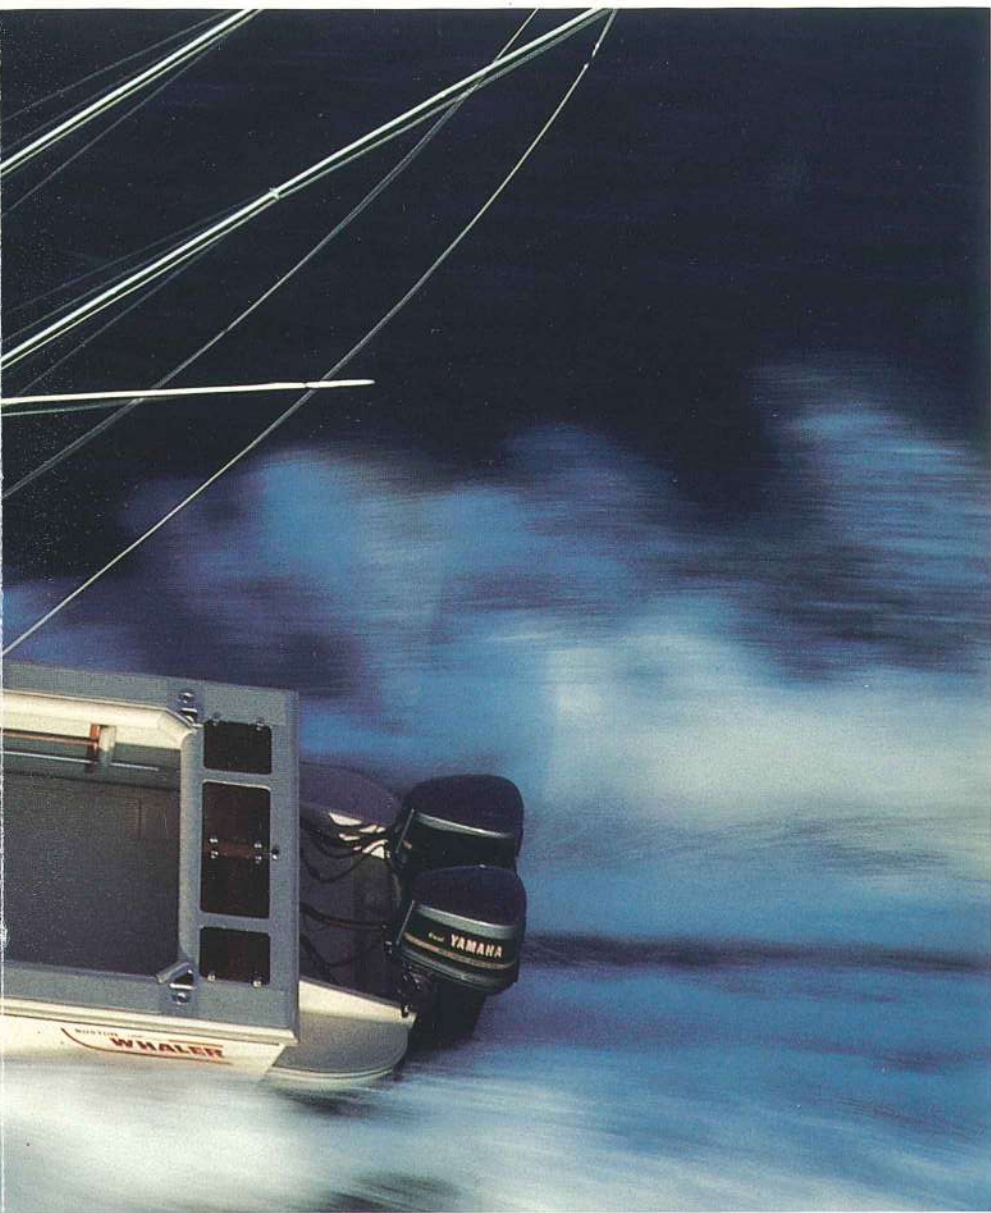

The walkaround design lets you get to the bow easily when the fish decide to get difficult. Or when it comes time to set your hook in a quiet anchorage, and relax on the cushioned forward seat.

The Whaler 25 gives you three fish boxes. So you can pack it all in after a hard day's work.

Once there, you'll have enough wrestling room aft to grapple with just about anything that swims. And enough deck space about the cabin to follow the wildest of fish around the boat with ease.

As befits the serious offshore sportsman, the Whaler 25 also offers a complete inventory of fish boxes. Baitwells. Insulated coolers. Rod racks. Not to mention the security of our unsinkable foam-filled hull, backed by a ten-year transferrable warranty. The Whaler 25 Walkaround. It'll widen your perspective of what a great fishing boat should be.

There's even more room below for rod storage, or for resting up before the next bout. The galley features a dinette and a space-saving, fold-down counter.

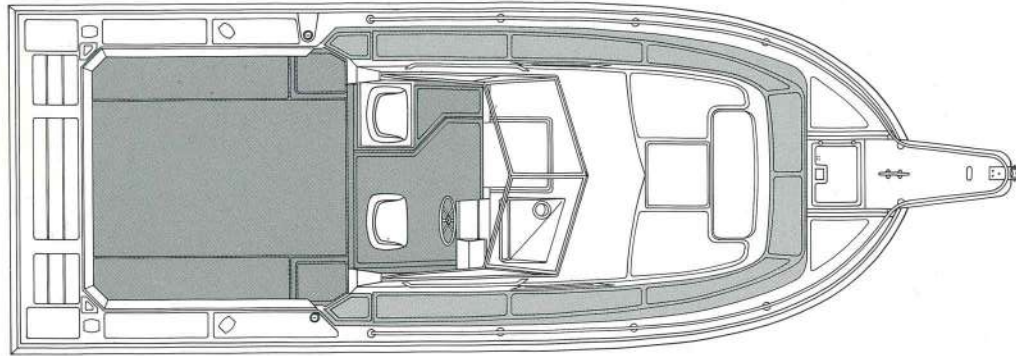

In addition to the quarter berth, there's a V-berth with an optional filler cushion. For when the fishing's too good not to spend the night.

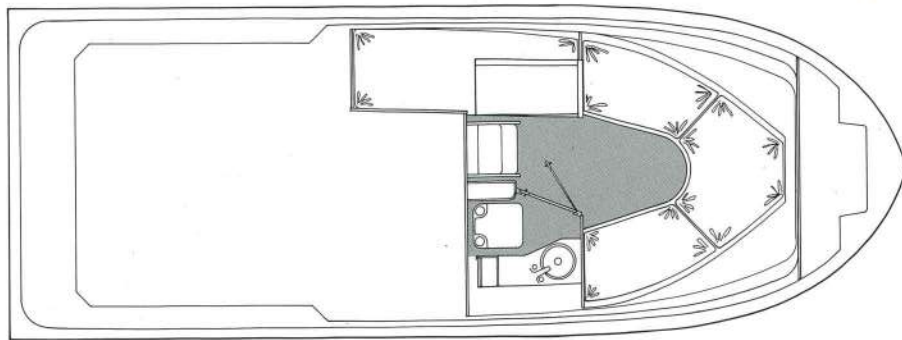

The cavernous cockpit lets you mount a fighting chair worthy of the meanest adversary, without having to sacrifice fighting room.

Key Specifications: LOA 25'3" (27'11" with Whaler Drive™). Beam 9'6". Draft 18". Boat weight 4600 lbs. Max. weight capacity (persons, motor and gear) 4200 lbs. Swamped capacity 10,000 lbs. Persons capacity 12. Max. horsepower 550. Transom height 25". Sleeps 3. Fuel capacity 250 gallons.
